

REMARKS/ARGUMENTS

Election

In response to the Restriction Requirement, the applicants elect Species B, Fig. 10, an embodiment wherein a pin is inserted into a hole so that a roller provides occlusion to a tube. It is believed that all of the claims are generic to and readable on Species B, as well as to and Species A (Fig. 9, an embodiment wherein a spacer is inserted so that a roller provides occlusion to a tube).

Claim 11 has been amended to correct an obvious typographical error. No new matter has been added.

Conclusion

The Examiner is invited to contact the undersigned at the telephone number provided below, should it be deemed necessary to facilitate prosecution of the application.

Respectfully submitted,

BANNER & WITCOFF, LTD.
